

SAFETY ALERT

Preventing Slips and Trips at Depot B

Date: August 2026

Location: Depot B : Night Shift

Distribution: All Depot B Staff, Supervisors, and HSE Team

THE SITUATION

The Safety Command Center dashboard has identified a **40% increase in Slip/Trip incidents at Depot B over the past 30 days**, with the majority occurring during the **Night Shift**.

Although most incidents have resulted in minor injuries, these hazards have the potential to cause serious harm. **Immediate action is required to prevent further incidents.**

REQUIRED ACTIONS

Clean Up Spills Immediately

Do not walk past liquid, oil, or debris. Clean it immediately where safe to do so. For larger spills, **cordon off the area and notify Maintenance.**

Check Safety Footwear

Inspect your non-slip safety footwear before every shift. If the tread is worn or damaged, **report it to your supervisor and request replacement.**

Report Poor Lighting

Report flickering, dim, or failed lights around walkways, loading bays, and transfer paths to the **Control Room** immediately.

Take Ownership of Hazards

If you identify a hazard, **do not ignore it.** Stop the job where necessary, make the area safe, or report and tag the hazard for repair.

CONTACT & SUPPORT

Immediate Safety Concern:

Contact your **Night Shift Supervisor** via radio or intercom.
